IOCS-2025 Instructions to Authors for Poster Abstract Submission

Abstracts are being accepted for poster presentations only.
The deadline for poster abstract submission is **15 August 2025**

All accepted abstracts will be published on the IOCS-2025 website. Note that abstracts appearing on the conference website are not counted as publications and will not be protected by copyright, so may be submitted to a journal for publication following the meeting. A compendium of all abstracts will be made available to conference attendees via the meeting website.

The person presenting the poster is considered the presenting author. Each conference participant is limited to submitting **ONE abstract as presenting author,** but may be listed as a co-author on an unlimited number of abstracts. The presenting author may appear anywhere in the abstract's author listing, but must be highlighted as instructed below. The abstract submission portal expects the presenting author to submit the abstract (called main author in the portal). If the presenting author is NOT the author submitting the abstract to the portal, please check the appropriate box when asked, and list the presenting author's details.

Abstract Guidelines

- Abstracts should be submitted in PDF format on 1 page, and should be no longer than 300 words
- The entire abstract should be in 11 point Calibri font (except for subscripts and superscripts)
- **Title of the abstract should be in bold letters**
- List all authors' names below the title, in a single line. The **presenting author's name should be in bold**. Add a superscript number to each name to refer to the list of affiliations and email addresses, which should be included below the abstract *(in italics).*
- Save the file using the naming format: Presenting author's **Lastname-Firstname-IOCS-2025.pdf**

Lightning Sessions

All poster presenting authors are invited to share information with the audience quickly and efficiently during special Poster Lightning Sessions (<1 min rapid oral presentations about your research).

You must consent to participate in the Poster Lightning Sessions during abstract submission.

If you need to edit your abstract after submission, please contact the IOCCG Project Office at ioccg@ioccg.org and EUMETSAT at iocs@eumetsat.int.
